

Driving decarbonization and digitalization. Together.

Specialist Supply Chain Planning and Projects (f/m /div)

Job description

Embark on a highly operational role where you serve as the bridge between the technical and the marketing sphere. As a Supply Chain Planning and Projects Specialist at Infineon, you will thrive in a dynamic environment of the complex semiconductor supply chain. Your ability to work independently will be crucial as you master the complexities of the semiconductor supply chain and serve as the link to ensure smooth operations. In addition, you will be embedded in an exceptionally international team and environment where your adaptability and cross-cultural communication skills will be crucial to success. This Position is limited to two years.

In your new role you will:

- **Optimize Demand and Supply Plans** of a specific product portfolio
- **Manage tight supply and customer allocation** in alignment with Product Marketing
- **Plan and maintain inventory targets** based on stock range objectives agreed within the organization
- **Develop ramp-up scenarios**, consider them carefully in the planning process, and monitor their execution
- **Act on behalf of Supply Chain** in product change projects by defining Supply Chain related activities as part of the project requirements and aligning the implementation of product changes with various stakeholders
- **Contribute to reaching production milestones** in a timely manner, and ensure Infineon's ability to deliver to our customers
- **Work out solutions with interdisciplinary teams**, e.g. Development, Product Marketing, Product Management, Quality Management and Frontend-/Backend manufacturing departments

Austria: We offer competitive salaries and additional benefits based on your performance, experience and qualification. The employment is in accordance with the collective salary and wage agreement for employees of the electrical and electronics industry, employment group F (<https://www.feei.at/wp-content/uploads/2022/05/minimum-salaries-white-collar-workers-2023.pdf>). The monthly salary is paid 14 times p.a. We offer a higher compensation depending on your expertise and skills.

Profile

You take on new challenges without knowing the right path to a possible solution in advance, while remaining aware of the big picture even in complex situations. You think and act in a cooperative way, and clarify areas of responsibility, coordinate your

Why Us

Driving decarbonization and digitalization. Together.

Infineon designs, develops, manufactures, and markets a broad range of semiconductors and semiconductor-based solutions, focusing on key markets in the automotive, industrial, and consumer sectors. Its products range from standard components to special components for digital, analog, and mixed-signal applications to customer-specific solutions together with the appropriate software.

– Power & Sensor Systems (PSS) drives leading-edge power management, sensing, and data transfer capabilities –

The **PSS division** powers decarbonization and digitalization with a wide range of energy-efficient and digital solutions. PSS semiconductors help avoid carbon emissions, use resources sustainably, manage power effectively and intelligently, give ‘things’ smart senses, and process data quickly and reliably. The portfolio includes power, connectivity, RF, and sensor system technologies to develop smaller, lighter, smarter, and more efficient solutions for consumer devices, smart home/building

applications, robotics, computing and data centers, charging devices, power tools, and much more.

The next generation of silicon and wide-bandgap (SiC and GaN) solutions provides unparalleled performance and reliability for 5G, big data, and renewable energy applications. These materials are paving the way for further energy and carbon savings. Highly precise XENSIV sensor solutions are enabling IoT devices to react intuitively to their surroundings for seamless user interactions while audio amplifiers bring exceptional sound experiences to smart speakers and other audio use cases. We are on a journey to create the best Infineon for everyone.

This means we embrace diversity and inclusion and welcome everyone for who they are. At Infineon, we offer a working environment characterized by trust, openness, respect and tolerance and are committed to give all applicants and employees equal opportunities. We base our recruiting decisions on the applicant´s experience and skills.

We look forward to receiving your resume, even if you do not entirely meet all the requirements of the job posting.

Please let your recruiter know if they need to pay special attention to something in order to enable your participation in the interview process.
